Overview

LPL Financial Research is making some minor changes to our portfolio make-up within certain Model Wealth Portfolios.

In our Alpha Focused models, we have decided to eliminate the exposure to Real Estate Investment Trusts (REITs) in all investment objectives and initiate a position in Emerging Market equities.

In both the Alpha Focused and Diversified Tactical models we are making minor changes to our equity implementation. The goal of these changes is to help improve the performance and risk profile of the overall portfolio level.
